

I2K

## From Images to Knowledge 2024

SAVE THE DATE!

23-25 Oct 2024

IN PERSON @  
Human Technopole,  
Milan

The aim of the biennial I2K Conference is to bring together developers, researchers, and students working in the field of **computational image analysis** from all over the world. As **life science** studies increasingly rely on **microscopy images**, learning to perform **quantitative analysis** on these data to reach sound conclusions is a key asset. Over the years, I2K Conference has become a flagship event for all those scientists willing to dive deep into the topic through interactive tutorials covering **cutting-edge open-source solutions for biological image reconstruction and analysis**. The 2024 edition will be held in person at Human Technopole (Milan, Italy)!

## SCIENTIFIC ORGANISERS

## JIANXU CHEN

Research Group Leader,  
Isas, DE

## FLORIAN JUG

Research Group Leader  
HT, IT

## STEPHAN SAALFELD

Research Group Leader,  
Janelia Research Campus, US

## BETH CIMINI

Research Group Leader,  
Broad Institute, US

## ANNA KRESHUK

Research Group Leader,  
EMBL, DE

## AUBREY WEIGEL

Project Scientist,  
Janelia Research Campus, US

## JORAN DESCHAMPS

Image Analysis Researcher and Research  
Software Engineer Coordinator,  
HT, IT

## FLORIAN LEVET

Research Scientist,  
University of Bordeaux, FRCheck
