

Neurogenomics Conference

Tuesday, 20 May 2025

Neuroimmunology (11:30 - 13:05)

-Conveners: Oliver Harschnitz

time	[id] title	presenter
11:30	[23] Leveraging single cell technologies to engineer the immune system	AMIT, Ido
11:55	[24] Exploring the role of the piRNA pathway in microglia and neuroinflammation	BEATINI, Silvia
12:05	[25] Tau uptake, processing and secretion by human iPSC-microglia	COWLEY, Sally
12:30	[26] Village-based neural progenitor cell proliferation and viability assays reveal genetic and environmental determinants of cellular fitness	WELLS, Michael
12:40	[27] Mapping and modeling brain macrophages	GINHOUX, Florent
