

# Neurogenomics Conference

## Wednesday, 21 May 2025

**Cancer neuroscience (08:45 - 10:20)**

-Conveners: PhD/postdoc Rep Human Technopole, IT

time	[id] title	presenter
08:45	[34] A brain-wide neuronal circuit connectome of human glioblastoma	SONG, Hongjun
09:10	[35] Glioblastoma stem cell morphotypes convey distinct cell states and clinically relevant functions	BARELLI, Carlotta
09:20	[36] The neural environment of cancer and beyond	MAGNON, Claire
09:45	[37] Mapping tumour heterogeneity in glioblastoma with integrated single cell and spatial genomics	MEMI, Fani
09:55	[38] Targeting the neural blueprint of brain tumors	VENKATARAMANI, Varun
