

Neurogenomics Conference

Wednesday, 21 May 2025

Neurodiversity in language and cognition (10:50 - 12:40)

-Conveners: Giuseppe Testa

time	[id] title	presenter
10:50	[39] The Human Condition through Human Conditions	BOECKX, Cedric
11:15	[40] The genetic architecture of autism: from medicine to neurodiversity	BOURGERON, Thomas
11:40	[41] Neurodiversity in a dish: integrating epidemiology and cortical brain organoid modelling through a hormonal signalling atlas	CAPORALE, Nicolò
11:50	[42] Autism, ability and the human brain on a continuum	GESCHWIND, Daniel
12:15	[43] Tracing Neurogenomic Disorders Across Human Phenotypes	RAZNAHAN, Armin

Neurodiversity in language and cognition (14:00 - 15:00)

-Conveners: Giuseppe Testa

time	[id] title	presenter
14:00	[44] [Keynote Lecture] (Epi)Genomics Of Stress - Implications For Psychiatry	BINDER, Elisabeth
